Love in Silence - 2 S. SUMNYAN

2018-11-12 "Marriages are made in heaven" is a well-known adage. The protagonists – Anjali (a beautiful Brahmin girl) and Chetan (a sensible tribal boy) – were destined to tie the knot, in spite of inherent hurdles. This fiction is based on their unspoken love. Intense love for each other was ignited through an episode of novel-exchange between Anjali and Chetan. Both were shy and therefore never expressively communicated their love. It all happened in silence and without a word of love being spoken. It was truly 'love in silence'.

Departure William Chapman 2011-08 The complete Green on Green Trilogy of novels is a complex saga of the Viet Nam war era, from the POV of a drafted infantry soldier, Private Michael Landers, very much against the war. By subtle revelations, it melds in with a mythological saga of a tribe of Montagnard people in the Vietnamese Mountains who have never heard of Americans or even Vietnamese...on purpose. A boy and an old man with wizardly powers have been drafted into a war between their gods. In Departure, Landers is due to be shipped out from the Oakland Army Departure Depot, where thousands of soldiers per week are sent to Viet Nam. Only he shows up up on LSD, stating that the war is against all American principles; that he won't go. This becomes a 2-month stand-off between him and the military bureaucracy. Begins with Landers surfing and partying with old friends in San Diego's offbeat Ocean Beach.

Soon moves to the San Francisco Bay Area, where, when off the military bases, he wanders the streets of San Francisco with a pair of Viet Nam infantry vets, to delve into this extreme version of "Drugs, sex and rock and roll" versus "the Establishment." He uncovers shady government provocateurs leading the U.C. Berkeley anti-war demonstrations. Closely based on personal experience.

A History of the Indian Novel in English Ulka Anjaria 2015-07-08 A History of the Indian Novel in English traces the development of the Indian novel from its beginnings in the late nineteenth century up until the present day. Beginning with an extensive introduction that charts important theoretical contributions to the field, this History includes extensive essays that shed light on the legacy of English in Indian writing. Organized thematically, these essays examine how English was "made Indian" by writers who used the language to address specifically Indian concerns. Such concerns revolved around the question of what it means to be modern as well as how the novel could be used for anti-colonial activism. By the 1980s, the Indian novel in English was a global phenomenon, and India is now the third largest publisher of English-language books. Written by a host of leading scholars, this History invites readers to question conventional accounts of India's literary history.

Back to Venice Michael Grant 2011-05-26 Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's *The Scream*. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in

love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay-which is sometimes zany and sometimes frightening-he meet his hero, Michelangelo, who teaches him the true meaning of art.

Memphis 1873 Dennis D. Carrigan 2014-10-09 Having survived the worst effects of the Civil War, the city of Memphis, battered but unbowed, finds itself facing a far more dangerous foe. It is invisible, lethal, and unstoppable: a plague of yellow fever. It is the story of JP Mahoney, 14-year-old farm boy who dreams of escape from tedious chores and farmlife routine. It is the story of a courageous young woman, Ginnie Moon, onetime Confederate spy, who now operates a boarding house for men who have survived the war. And it is the story of Kevin O'Boyle, an embittered riverfront laborer, who blames the world for his troubles, and finds the crippled city his

perfect prey. Several characters in the novel are actual historical figures, most notably Ginnie Moon, Judge "Pappy" Hadden, and Cap'n Jim Lee. Their actions, and those of the other characters, are entirely fictional. The plague, one of several to hit the city in the years following the war, was all too real.

The Touch Robert Edward Flynn, III. 2017-02-17 The old beast is up to something out of character here. Gabriel appears autistic because he hears a voice. The voice is real, but it is a supernatural presence. This voice gives him a power that he can transfer by touch. Gabriel does not trust this presence, though he finds that the wonder of what he is experiencing is far too great for him to resist. Gabriel's "autism" is really a defense against the weight

of the power that has engulfed his heart, mind and soul, from the very beginning. He has no memory of his parents and in actuality, the voice, which causes him so much distress, is the only reality he has ever known. Living in an orphanage in Austin, Texas, all of his life, the voice has shown him more attention and love than any other person. He befriends one other special young person in that orphanage, Joshua Fellows. Joshua also has experienced little love in his short life. The bond between these two young boys is the beginning of an amazing journey. Together, they form a bond that gives each of them strength to take the gift, and to use it for good. They will ultimately discover that the presence is not at all who they expected.

The Story of Electricity John Munro 1902

SHAN HAI JING—A BOOK COVERED WITH BLOOD Kate Bazilevsky 2014-08-22 In essence, this story is about how a certain person was searching his bookshelf for something to read and in the end found a book, which turned out to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone, who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of Homo sapiens; in essence, the same as encyclopedias, reference books for specialists, which contain complete information

about representatives of a particular subspecies of animals, plants, etc. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone's help, but thanks to that knowledge, which they discovered in the ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got. And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population—technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific discovery made by Andrey Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of

the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to exist without leaving a trace. As for organizers of this "civilization"—maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly. *You Can't Kill My Love* Prasenjeet Kumar 2017-04-19 A Holocaust in Kashmir destroys two lives till love unites them. The First Cut Is the Deepest

La'shonda Presha 2017-03-31 This book is a detailed depiction of the "cuts" that people incur or will incur over the course of their lives, and how those "cuts" subsequently shape their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred). Unfortunately, people will inevitably incur hurts and pains in life, which most are beyond their own control. One simply cannot control what happens to them at the hands of another. People hurt other people. It's not so much the hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the art of disguising the pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in need of healing. The purpose of this book is to aid in identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard. Oftentimes, people

need healing to recover from some trauma or tragedy that they've endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately forsaking the need and opportunity to heal. It's the lack of healing that causes people to hurt others or live unhappy lives. This book was written to aid people with identifying their hurt, their need for healing, and ultimately helping them to heal and subsequently live their best lives.

Postmodern Traces and Recent Hindi Novels Veronica Ghirardi 2021-07-06 Postmodernism is a notoriously elusive concept and still the object of critical debates among scholars across a range of different disciplines. In literature, in particular, these debates are complicated by "postmodern" styles

emanating from outside the concept's Western origins. By analyzing contemporary Hindi novels, and drawing on both Western and Hindi literary criticism, "Postmodern Traces and Recent Hindi Novels" aims to understand some of the manifestations of postmodernism in contemporary Hindi fiction, including ways the latter might challenge the traditional parameters of postmodern literature. This book is essential reading for scholars and students specializing in South Asian studies and both postcolonial and comparative literature. It will also interest the general reader curious to know more about one of the less explored areas of world literature.

Gone to America David J. Lorenzana 2013-06-06 This is a memoir presented in an anthological - like format; in other words, a collection of short

stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.

Don't go there. It's not safe. You'll die. And other more >> rational advice for overlanding Mexico & Central America
