Hot Rod Empire Matt Stone 2018-09-25 Hot Rod Empire details Robert E. Petersen's creation of Hot Rod Magazine in the 1940s and the Petersen Publishing empire that grew to the mainstream juggernaut we know today. The end of World War II marked the release of pent-up war-years energy and the desire to live. For many this meant indulging in long-denied purchases, like a new car. For another group, including young vets, it meant a return to car building and racing. Money, exciting new cars, and speed parts all flowed freely in post-war America. Robert Petersen, a young SoCal-based photographer and Army Air Corps vet, noted the rapidly

growing hot rod scene in and around Los Angeles. His first move was to organize the Los Angeles Hot Rod Exhibition in 1948. His second, and brilliant, move was to launch at the same event the first edition of Hot Rod magazine. From this launch pad, Petersen Publishing Company would grow to become the most influential enthusiast publisher in America. Petersen's magazines were rallying points for all aspects of the car, truck, and motorcycle hobbies, well as nurturing and promoting all aspects from car building to racing to show events. Hot Rod, Motor Trend, Car Craft, Motorcyclist, Off-Road and Four Wheel Drive and some 75 other enthusiast titles dominated magazine racks and provided substantial influence over transportation and numerous other hobbies.

Hot Rod Empire celebrates the birth and explosive growth of the transportation hobby under Petersen's watch.

With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show developers how to make the most of Microsoft's

Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII. Meet Me At Sundown

Celine Jaisarie

2018-08-13 Meet Me At Sundown is a collection of poems targeted at the psyche of a tormented person. The idea behind this is for you the readers to read this book with an open mind and without knowing the true meaning. As you do this, the intention is

that however you interpret it, that interpretation says something about you, your frame of mind and your life. It may go as deep as to point out to you what you need to work on, change or what you have been hiding from. This is because what you interpret from each poem says something about your psyche. The way the book is written is as a collection of poems, each poem tells its own story. So each poem can be said to be a chapter and all the poems together makes up the full story. The true intention and meaning behind the book or the real story told is a tale of a shunned love lost and constitutes of modern day issues such as homosexuality and forbidden love.
