*Alone* Cyn Balog 2017-11-07 This must-read for lovers of Stephen King's The Shining will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

*Getting Saved in America* Carolyn Chen 2014-08-31 What does becoming American have to do with becoming religious? Many immigrants become more religious after coming to the United States. Taiwanese are no different. Like many Asian immigrants to the United States, Taiwanese frequently convert to Christianity after immigrating. But Americanization is more than simply a process of Christianization. Most Taiwanese American Buddhists also say they converted only after arriving in the United States even though Buddhism is a part of Taiwan's dominant religion. By examining the experiences of Christian and Buddhist Taiwanese Americans, *Getting Saved in America* tells "a story of how people become religious by becoming American, and how people become American by becoming religious." Carolyn Chen argues that many Taiwanese immigrants deal with the challenges of becoming American by becoming religious. Based on in-depth interviews with Taiwanese American Christians and Buddhists, and extensive ethnographic fieldwork at a Taiwanese Buddhist temple and a Taiwanese Christian church in Southern California, *Getting Saved in America* is the first book to compare how two religions influence the experiences of one immigrant group. By showing how religion transforms many immigrants into Americans, it sheds new light on the question of how immigrants become American.

**Parentology** Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

*Royal Enfield* Greg Pullen 2021-04-26 Royal Enfield's famous motor - 'made like a gun' - hints at the factory's origins, but few appreciate that it is the oldest motorcycle manufacturer in existence that can boast of continuous production. In addition, its famous Bullet can claim the longest motorcycle production run of all time. Greg Pullen charts the rise, fall and rise again of Royal Enfield, from the company's pre-motorcycle beginnings in Redditch, through the impact of two World Wars, the importance of exports to India and subsequent establishment of factories there, to changes in ownership, recently launched models and new concept bikes for the future. With 190 colour photographs, this book includes: the V-twins, from the 1930s K and KX range to a glimpse of the concept V-twin shown in 2018; the singles, from 2-strokes to side-valve 4-strokes, and the ohv version that first used the Bullet name, through to the new singles built in India. The British Bullet: its arrival in 1948 and production in the UK, the original orders from India and subsequent setting up of production there are discussed. The 250s, (1958-68), including the Turbo Twins, and the big twins, from the 1948 500 Town to the final interceptor in 1970, including the 800cc prototype and the Clymer Indians are covered. The new twins: the 650cc Royal Enfield interceptor and Continental GT twins and the Bobber concept bike are discussed. Competition success is covered, with notable ISDT achievements, star rider Johnny Brittain and racing the big twins, and Geoff Duke in the GP5. Finally, the British factories and the new opportunities with the Indian factories are remembered.

*Issei Buddhism in the Americas* Duncan Ryūken Williams 2010 Rich in primary sources and featuring contributions from scholars on both sides of the Pacific, *Issei Buddhism in the Americas* upends boundaries and categories that have tied Buddhism to Asia and illuminates the social and spiritual role that the religion has played in the Americas. While Buddhists in Japan had long described the migration of the religion as traveling from India, across Asia, and ending in Japan, this collection details the movement of Buddhism across the Pacific to the Americas. Leading the way were pioneering, first-generation Issei priests and their followers who established temples, shared Buddhist teachings, and converted non-Buddhists in the late nineteenth and twentieth centuries. The book explores these pioneering efforts in the context of Japanese diasporic communities and immigration history and the early history of Buddhism in the Americas. The result is a dramatic exploration of the history of Asian immigrant religion that encompasses such topics as Japanese language instruction in Hawaiian schools, the Japanese Canadian community in British Columbia, the roles of Buddhist song culture, Tenriyko ministers in America, and Zen Buddhism in Brazil. Contributors are Michihiro Ama, Noriko Asato, Masako Iino, Tomoe Moriya, Lori Pierce, Cristina Rocha, Keiko Wells, Duncan Ryūken Williams, and Akhihiro Yamakura.

**Quattro** Jeremy Walton 2020-09-15 The word 'Quattro', chosen by Audi for its pioneering high-performance four-wheel-drive cars, immediately captures glamour and excitement in the minds of all motorsport enthusiasts. This book, written by a leading journalist and Quattro devotee, explores 24 years of factory-prepared and factory-supported Quattros in motorsport, from 1980 to 2004. It is a tale that extends from rough rally stages to race tracks, from pine-fringed ice trails in the depths of European winters to the shimmering heat haze and melting asphalt of Texas street racing. Along the way, it explains how Quattros collected four world rally championships, five American driver/manufacturer crowns and a single-year haul of seven international touring car titles, plus numerous other honours. With the five-cylinder turbocharged Quattro in its original form, rallying in the early years yielded numerous wins, most of all in 1982, when seven victories in 11 world championship rallies brought the first title. With the short-wheelbase Sport added to Audi's armoury, 1984 became an all-action, all-conquering rallying season with two more world titles won, for drivers (Stig Blomqvist) and manufacturers. Three stunning Pike's Peak wins were achieved in America in successive years, for Michele Mouton (1985), Bobby Unser (1986) and Walter Röhrl (1987). Starting with double championships for the 200 quattro in TransAm (1988) and the 90 Quattro in IMSA (1989), racing success unfolded in America. Exuberant Hans Stuck was the star driver, but consistent team-mate Hurley Haywood captured that 1988 title. Touring car campaigns during the 1990s brought huge success, starting with fearsome V8 Quattro 'racing limos' in Germany. Global achievements followed with A4 Quattros in many national Super Touring series throughout Europe and in Australia, including Frank Biela's 1996 title-winning campaign in Britain. Audi continued to win on track in the new millennium as race versions of the S4 and RS6 captured five SCCA GT Championship titles in America.
