Faithful Education Ali Riaz 2008-09-03 In the wake of the terrorist attacks on September 11, 2011, discussions on ties between Islamic religious education institutions, namely madrassahs, and transnational terrorist groups have featured prominently in the Western media. In the frenzied coverage of events, however, vital questions have been overlooked: What do we know about the madrassahs? Should Western policymakers be alarmed by the recent increase in the number of these institutions in Muslim countries? Is there any connection between them and the "global jihad"? Ali Riaz responds to these questions through an in-depth examination of the madraassahs in Pakistan, Bangladesh, and India. In *Faithful Education*, he examines these institutions and their roles in relation to current international politics.

The Future of Iran's Past Neguin Yavari 2018 *The Future of Iran's Past* is a critical study of the life and afterlife of Nizam al-Mulk (1018-92), celebrated Persian vizier and stalwart figure of power and authority in medieval Islamic society. He became the de facto ruler of a vast empire, with a final apotheosis as Islamic history's archetypal good vizier. Such was his standing among the glitterati of his era that he was considered an ideal replacement for the Abbasid caliph himself. As well as the outstanding figure in a long run of great viziers and administrators who dominated premodern Islamic politics, al-Mulk is remembered as the most prominent politician of the period to perceive new beginnings and radical departures. Neguin Yavari offers a close reading of al-Mulk's many legacies, revealing a complex imbrication of political and religious authority, as well as pre-Islamic and Islamic influences that have together shaped modern Iran. She shows that the new Iran of al-Mulk's singular vision, rather than a tale of uninterrupted Iranisation, is imbued with an extensive interplay of residual and emergent tendencies.--Front flap.

Redefining Urdu Politics in India Ather Farouqui 2010 This volume breaks new ground on the issue of the Urdu language with the backdrop of language politics in the post- and pre- Partition eras. It is a compilation of essays and commentaries by seventeen renowned Urdu literateurs, scholars of social science, and lovers of the Urdu language and its literature. This seminal volume of essays on the status of the Urdu language since partition examines the problems faced by Urdu and the future of its survival as a functional language in India. It forwards the argument

that this once-secular language has now been denigrated to only the Muslim population--it survives merely as a medium of religious instruction in madrasas. This has brought the functionality of the language in the common Indian civic space into question and has given it communal overtones. These essays, by seventeen renowned Urdu litterateurs, speak against such reductionism. They look forward to the integration of Urdu into the educational curriculum as a Modern Indian Language and provide workable solutions for the same. This would also pave the way for a better assimilation of the minority Muslims into the mainstream fabric of India, by promoting a more liberal and modern outlook in the community. *Redefining Urdu Politics in India* is a significant contribution towards giving Urdu its rightful place alongside other regional Indian languages and the dissemination of education to all sections of the Indian Muslim community.

Madrassa Education in Modern India Saral Jhingran 2010 This study steers clear of the stereotype conception of madrasas as the training ground of terrorists. Its chief concern is the search for the ground of realities about madrasas, what and how they teach, and whether the syllabus or ambience of madrasas prepares the students for successfully facing the challenges of the modern world. It enquires into the reasons for a relatively large number of Muslims opting for madrasas education for their children. The work also tries to understand the almost universal nisab or syllabus of madrasas, called Dars-i-Nizami, developed during Aurangzeb's time, and notes that there have been very few marked changes in the madrasas syllabus, though the world and life have moved so much ahead. A large portion of madrasas syllabus, therefore has become irrelevant for modern times. The author convincingly argues that most Muslim children must study in modern schools and only a small number who want to specialize in theology should study in madrasas. The study pays particular attention to the proposals for madrasa reforms, both from within the system, and the madrasa modernization scheme of the government.

The Madrasa in Asia Farish A. Noor 2008 Summary: "Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan."--Publisher description.

Al - Hidayah (The Guidance) Burhan Ad-Din Al-Farghani Al-Marghinani 2020-10-13 The Hidayah has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslim jurists to issue authentic and reliable rulings on Islamic law according to the school of Imam Abu Hanifa (d 150H/767CE). The Hidayah commands such an authoritative position amongst the doctors of law that the knowledge of a scholar who has not read it is not considered reliable. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated into English by Charles Hamilton in 1791. Around 70 huge commentaries, some spread over more than a dozen volumes have been written on it. The number of explanatory glosses is in thousands. Comprehensive in content and conveniently organized, with the publication of this all previous works that discussed Islamic jurisprudence according to the Hanafi law become outmoded and soon fell into disuse. If revealed books are not taken into account, never has a book received so much attention as the Hidayah. This landmark publication of the Hidayah not only has been translated in its entirety for the first time but has been done so from Arabic, the language in which it was written. The author, Shaykh Al Islam, Burhan Al-Din Marghanani (d 593 AH/ 1197 CE) was considered to be the leading jurist of the Muslim world in his times. "The hidayah is justly celebrated as the most practical and useful summary compilation of Hanafi jurisprudence. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated by Charles Hamilton in 1791. A new translation into modern English has been long overdue. This translation by Imran Ahsan Khan Nyazee is both precise and straight forward. With his knowledge of Islamic law and jurisprudence combined with his command of both the Arabic and English languages, he has conveyed the meaning of the original with great clarity. The hidayah is a dense work, intended for use in teaching Hanafi fiqh - it is a work that needs explication if its arguments are to be understood fully. This the translator has provided through this valuable notes" Dr Mohammad Akram Nadwi, research fellow, Oxford centre for Islamic studies, Oxford

Additionally, the book examines the International Development Bank's role in financing the development old waqf properties in different countries.

The Deoband Madrassah Movement Muhammad Moj 2015-03 This innovative book analyses the growth of Deobandi Islam, a religious sect whose followers include extremist groups, through the frame of a counterculture in conflict with mainstream Muslim society. Due to its relationship with the Taliban, close links to al-Qaeda, and worldwide reach through the 'Tablighi Jamaat' (Proselytization Group), the Deoband Madrassah Movement has come to acquire global significance. In Pakistan, Deobandi schools have increasingly been associated with the rise of an intolerant and militant strain of Islam linked with terrorist activities.

The Defining Moments in Bengal Sabyasachi Bhattacharya 2014-05-27 This work explores some of the constitutive elements in the life and mind of Bengal in the twentieth century. The author addresses some frequently unasked questions about the history of modern Bengal. In what way was twentieth-century Bengal different from 'Renaissance' Bengal of the late-nineteenth century? How was a regional identity consciousness redefined? Did the lineaments of politics in Bengal differ from the pattern in the rest of India? What social experiences drove the Muslim community's identity perception? How did Bengal cope with such crises as the impact of World War II, the famine of 1943 and the communal clashes that climaxed with the Calcutta riots of 1946? The author has chosen a significant period in the history of the region and draws on a wealth of sources archival and published documents, mainstream dailies, a host of rare Bengali magazines, memoirs and the literature of the time to tell his story. Looking closely at the momentous changes taking place in the region's economy, politics and socio-cultural milieu in the historically transformative years 1920-47, this book highlights myriad issues that cast a shadow on the decades that followed, arguably till our times.

The Struggle for Iran Christopher de Bellaigue 2007-05-22 When Christopher de Bellaigue first visited Iran in 1999, he found it irresistably alive: under the leadership of President Mohammad Khatami, Islamic revolutionary rule was loosening and the prospects for democratic pluralism seemed bright. But over the remaining six years of Khatami's presidency, de Bellaigue watched as the conservative religious establishment reasserted its power and the hopes of reform slowly died. The country seemed to turn its back on all that Khatami stood for when it elected an unsophisticated Islamist ideologue, Mahmoud Ahmadinejad, to succeed him in 2005. As the optimism of the reform movement was fading, international tensions over Iran's nuclear program were rising. George W. Bush included Iran in the "axis of evil," depicting it as a malign theocracy determined to acquire nuclear weapons and threaten Israel. Yet de Bellaigue's accounts of the nuclear negotiations make

clear that the West's opposition to Iranian nuclear ambitions has helped both to empower those who oppose democratic reform and perhaps even to convince Iran it needs nuclear weapons for self-defense. Beyond the high political drama, de Bellaigue, a long-term resident of Tehran and a fluent Persian speaker, gives a sense of the complexities of Iranian culture and society through striking portraits of Iranians going about their daily lives—reading the poetry of Rumi, looking at modern art, making films under the threat of censorship, trying to get by despite domestic turmoil and military threats. His keen analyses of Iran's politics and its people offer fascinating insights into a often misunderstood nation that poses some of the most challenging problems facing the world today.
