*Students at Risk of School Failure* José Jesús Gázquez 2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure, identifying student and context variables. In spite of the fact that there is currently little doubt about how one learns and how to teach, in some countries of the “developed world,” there is still there is a high rate of school failure. Although the term “school failure” is a very complex construct, insofar as its causes, consequences, and development, from the field of educational psychology, the construct “student engagement” has recently gained special interest in an attempt to deal with the serious problem of school failure. School engagement builds on the anatomy of the students' involvement in school and describes their feelings, behaviors, and thoughts about their school experiences. So, engagement is an important component of students’ school experience, with a close relationship to achievement and school failure. Children who self-set academic goals, attend school regularly and on time, behave well in class, complete their homework, and study at home are likely to interact adequately with the school social and physical environments and perform well in school. In contrast, children who miss school are more likely to display disruptive behaviors in class, miss homework frequently, exhibit violent behaviors on the playground, fail subjects, be retained and, if the behaviors persist, quit school. Moreover, engagement should also be considered as an important school outcome, eliciting more or less supportive reactions from educators. For example, children who display school-engaged behaviors are likely to receive motivational and instructional support from their teachers. The opposite may also be true. But what makes student engage more or less? The relevant literature indicates that personal variables (e.g., sensory, motor, neurodevelopmental, cognitive, motivational, emotional, behavior problems, learning difficulties, addictions), social and/or cultural variables (e.g., negative family conditions, child abuse, cultural deprivation, ethnic conditions, immigration), or school variables (e.g., coexistence at school, bullying, cyberbullying) may concurrently hinder engagement, preventing the student from acquiring the learnings in the same conditions as the rest of the classmates.

**Spanish Around the House Book #2** Sara Tyler Please note that this is the 2nd book in the series. The first book is recommended before beginning this one. Are you looking for the ✓ BEST, ✓ EASIEST, and ✓ QUICKEST way for you or your child to learn Spanish? Then, the Spoken Spanish at Home book series (for Native English Speakers) is for you! This series is what I created for my own family to practice Spanish. We are too busy for formal classes, so we have to fit in language learning wherever we can! SUMMARY Book #2 (this book): Learn the vocabulary for furniture and appliances in the home. Book #1 (previous book): Learn the vocabulary for rooms in a house. FROM THE LANGUAGE CURRICULUM EXPERT Learning Spanish since 2005, teaching since 2010, graduating with a B.A. and 2 M.A.s, I love to study. However, I spent a lot of time on things that I never ended up needing. Then, when my husband wanted to improve his English, we tried many different courses. But none of them worked. They were filled with: Too much boring grammar Vocabulary that he would never use No interaction or practice WE KNOW OTHER BILINGUAL FAMILIES HAVE THE SAME PROBLEM There had to be a better way! A way for him to learn quickly, effectively, and to stay motivated by seeing a ton of progress along the way. And as a bilingual family, as well as expats, prioritizing the vocabulary that we see, use, and touch everyday, was my number one goal. Therefore, I set out to create materials that are Easy enough for any beginner student to understand Teach the most common and valuable concepts FIRST Encourage speaking practice Can be read together as a family HIGHLIGHTS OF THE BOOK With the read-aloud strategy that you will experience in this book, students will see: Easy to understand grammar structures. Vocabulary words with bright pictures. A book that can be read as a family, regardless of age. Visuals that help younger learners easily participate (before they can read). Faster speaking results than traditional grammar-based programs. An increase in overall comprehension as they pick-up everyday words. HOW IS A BOOK INTERACTIVE? Not just a picture book, Learn English Around the House Book 1 for Native Spanish Speakers, makes beginner students (children, teens, and adults!) use the information right away. ① Vocabulary is replaced by pictures through the book. ② Students have to orally say the vocabulary as they read aloud. It sounds much easier than it is! They are not just repeating words from the paper. Instead, they have to recall the correct English vocabulary word as they read. This strategy is meant to help students retain the information quicker, and for a longer period of time. When students have to stop and think, (or flip back to the vocabulary page), it sends a message to their brains. The brain understands that trying to find this word means that it must be important. And the brain holds on to important information. AN ENTIRE SERIES OF ENGLISH LANGUAGE BOOKS FOCUSED ON THE HOME Once you finish this book, make sure you read the next one. You will have repetition of common vocabulary. It will introduce more grammar to build on your current knowledge. Each book has a new skill to help you progress. You will see immediate results and progress.
