Black Woman Redefined Sophia Nelson
2012-11-20 It's time for a REDEFINITION among black women in America. In its 2011 hardcover release, *Black Woman Redefined* was a top-selling book and took home a 2011 Best Non-Fiction Book of the Year Award from the African American Literary Awards. Author Sophia A. Nelson won the 2012 Champions of Diversity Award, given each year by diversity business executives in Fortune 100 companies. *Black Woman Redefined* was inspired in part by what Nelson calls "open season on accomplished black women": from Don Imus's name-calling of black female basketball players in 2007 and a 2009 Yale University study titled "Marriage Eludes High-Achieving Black Women," to the more recent revelation that First Lady Michelle Obama is concerned about being painted as an "angry, black woman." In *Black Woman Redefined*, Nelson sets out to change this cultural perception, taking readers on a no-holds-barred journey into the hearts and minds of accomplished black women to reveal truths, tribulations, and insights

like never before. This groundbreaking book provides black women of a new generation with essential career and life-coaching advice. Based on never-before-done research on college-educated, career-driven black women, Nelson offers her fellow "sisters"—and those who know, love, and work with them—a feel-good volume for personal and professional success that empowers them without tearing others down.

E Pluribus ONE Sophia A. Nelson
2017-01-17 OUR FOUNDERS understood that America was the greatest experiment on earth. And they sealed it with these words: E pluribus Unum: "Out of Many We Are One." "America is the story of us. And us isn't doing so great right now." Says award winning journalist and author Sophia A. Nelson. Coming on the heels of the raucous and divisive 2016 general election campaign, Nelson attempts to give the nation an inspirational charge and lift by helping us to reclaim our founders' vision for a united and strong America. Nelson reminds us that "we the people" are charged by our founders' to cherish life, liberty, freedom and equality,

as well as to safeguard the nation from intrusive governance. The founders' also charged our leaders to be moral, virtuous, patriotic servants of the people. In this groundbreaking book, Nelson challenges us to live out the call of our founding: We are ONE America. We are ONE People. We are ONE nation indivisible with liberty and justice for all. Pulling from our founding fathers' core principles of liberty, citizenship, morals, virtues, civic engagement, equality, self-governance, and, when required, civil disobedience, Nelson calls us to a higher standard. She calls us to purpose. And she calls us to rediscover the things that unite us, not divide us. One is a book that all Americans, regardless of political party, race, religion, or gender can embrace and share with their children and grandchildren for generations. It is a reminder simply of what makes America great and what makes us the envy of the world. Alexis de Tocqueville said it best: "America is great because America is good. If America ever ceases to be good, it will cease to be great." Nelson takes us on a historical, yet very inspirational journey of not just our founding values, but the men and women who walked them out and brought America to be the great light it is in the world over the past 240 years.

Brainwashed Tom Burrell 2010-06 Black people are not dark-skinned white people, says advertising visionary

He Leadeth Me William Beckford 2013-04 In this gripping and yet captivating account of a compelling true life story, William Beckford enthralls his audience with a story that will live with you - forever. He will transport you into his life and travel with him from his innocent childhood, the discovery of his nonexistent relationship with his siblings, through his depression and attempted suicide. The emotional abuse and neglect cycle started when he was a child, and continued through his teenage years. The pages turn on their own as this compelling story exposes a tale of a black sheep, the mindset of the victim, the actions of the people he thought would love him the most, the betrayal of family and friends, and the walk towards conversion, healing and restoration. Your nights will be short as you stay awake, reading each page as quickly as possible so you may know what happened next. Intense does not begin to describe "He Leadeth Me."

William's true story reads like a best-selling thriller - but it's not fiction. His story begins as a childhood nightmare and ends with God's miraculous and victorious deliverance and restoration. At the heart of this book are real issues that we all face: learning to grow through pain, making decisions that will help us move forward, overcoming adversity, and trust in the power of God for healing. Centered on the people that were close to him, he brings his own cast alive with crisp dialogue and action - oftentimes breathtaking with brutal honesty. At

an early age, he learned how to cope with adversity and loneliness. He found love, in other people's homes. Never has a story been told of how a child had to fend off forces of evil and powers of the dark world. With no hope of escape from the flood of witchcraft and sorcery, he learned to trust God even at an early age.

Socio-Cultural Perspectives on Science Education W.W. Cobern

2012-12-06 Global science education is a reality at the end of the 20th century - albeit an uneven reality - because of tremendous technological and economic pressures. Unfortunately, this reality is rarely examined in the light of what interests the everyday lives of ordinary people rather than the lives of political and economic elites. The purpose of this book is to offer insightful and thought-provoking commentary on both realities. The tacit question throughout the book is 'Whose interests are being served by current science education practices and policies?' The various chapters offer critical analysis from the perspectives of culture, economics, epistemology, equity, gender, language, and religion in an effort to promote a reflective science education that takes place within, rather than taking over, the important cultural lives of people. The target audience for the book includes graduate students in education, science education and education policy professors, policy and government officials involved with education.

Black Woman Redefined Sophia A. Nelson 2011 Looks at the way in which African American women are treated and portrayed in the media and offers an investigation into the lives and accomplishments of successful black women in the United States.

Homer & Langley E.L. Doctorow 2010-09-07 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE SAN FRANCISCO CHRONICLE, THE CHICAGO TRIBUNE, THE ST. LOUIS POST-DISPATCH, THE KANSAS CITY STAR, AND BOOKLIST Homer and Langley Collyer are

brothers—the one blind and deeply intuitive, the other damaged into madness, or perhaps greatness, by mustard gas in the Great War. They live as recluses in their once grand Fifth Avenue mansion, scavenging the city streets for things they think they can use, hoarding the daily newspapers as research for Langley's proposed dateless newspaper whose reportage will be as prophecy. Yet the epic events of the century play out in the lives of the two brothers—wars, political movements, technological advances—and even though they want nothing more than to shut out the world, history seems to pass through their cluttered house in the persons of immigrants, prostitutes, society women, government agents, gangsters, jazz musicians . . . and their housebound lives are fraught with odyssean peril as they struggle to survive and create meaning for themselves.

Pleasure Activism adrienne maree brown 2019-03-19 How do we make social justice the most pleasurable human experience? How can we awaken within ourselves desires that make it impossible to settle for anything less than a fulfilling life? Editor adrienne maree brown finds the answer in something she calls "Pleasure Activism," a politics of healing and happiness that explodes the dour myth

that changing the world is just another form of work. Drawing on the black feminist tradition, including Audre Lourde's invitation to use the erotic as power and Toni Cade Bambara's exhortation that we make the revolution irresistible, the contributors to this volume take up the challenge to rethink the ground rules of activism. Writers including Cara Page of the Astraea Lesbian Foundation For Justice, Sonya Renee Taylor, founder of This Body Is Not an Apology, and author Alexis Pauline Gumbs cover a wide array of subjects—from sex work to climate change, from race and gender to sex and drugs—they create new narratives about how politics can feel good and how what feels good always has a complex politics of its own. Building on the success of her popular Emergent Strategy, brown launches a new series of the same name with this volume, bringing readers books that explore experimental, expansive, and innovative ways to meet the challenges that face our world today. Books that find the opportunity in every crisis!

Policing the Planet Jordan T. Camp 2016-06-07 How policing became the major political issue of our time Combining firsthand accounts from activists with the research of scholars and reflections from artists, Policing the Planet traces the global spread of the broken-windows policing strategy, first established in New York City under Police Commissioner William Bratton. It's a doctrine that has vastly broadened police power the world over—to deadly effect. With contributions from #BlackLivesMatter cofounder Patrisse Cullors, Ferguson activist and Law Professor Justin Hansford, Director of New York-based Communities United for Police Reform Joo-Hyun Kang, poet Martín Espada, and journalist Anjali Kamat, as well

as articles from leading scholars Ruth Wilson Gilmore, Robin D. G. Kelley, Naomi Murakawa, Vijay Prashad, and more, *Policing the Planet* describes ongoing struggles from New York to Baltimore to Los Angeles, London, San Juan, San Salvador, and beyond.

The Other Journal: Identity Andrew David 2017-09-01 FEATURING: Judith Butler Lia Chavez Katherine James D. S. Martin Thomas Nail PLUS: What Does Where You're From Matter? * Ta-Nehisi Coates and the Power of Lament * Sing More Like a Girl * Jesus Doesn't Want Me for a Sunbeam * Occupied Identity * What's So Holy about Matrimony? AND MORE . . . "We the people . . ." So begins the familiar first line to the Preamble of the United States Constitution. But even in its initial context, in a document intended to be a manifesto of hope and freedom, the matter of who exactly was to be included in this "we" was unclear and contested. First-person pronouns (i.e., I and we) roll off the tongue—or onto parchment paper—with ease, but their common use often belies an underlying complexity. Who am I? Who are we? Who does my theology say that I am? Identity is at the same time essential to life and yet also deeply contested, problematic, and enigmatic. The world may be becoming more one and, yet, it seems also to be becoming more different, fragmented, agonistic, and isolated. In this issue of *The Other Journal*, we explore the valences of identity, both individual and communal, personal and public. We take up the theme of identity in multiple ways, examining its interconnections with gender and race, the dissolution and reconstitution of borders, and, yes, even the 2016 presidential campaign. The issue features essays by Derek Brown, Zach Czaia, Ryan Dueck, Julie M. Hamilton, Peter Herman, Zen Hess,

Kimberly Humphrey, Katherine James, Russell Johnson, Sus Long, Willow Mindich, Angela Parker, Taylor Ross, and Erick Sierra; interviews by Stephanie Berbec and Zachary Thomas Settle with Judith Butler and Thomas Nail, respectively; poetry by T. M. Lawson, D. S. Martin, Oluwatomisin Oredein, and Erin Steinke; performance art by Lia Chavez; and photography by Jennifer Jane Simonton, Pilar Timpane, and Mark Wyatt.

An Angry-Ass Black Woman Karen E. Quinones Miller 2012-10-02 The autobiographical novel from the author of *Uptown Dreams* and *Satin Doll* Karen E. Quinones Miller is AN ANGRY-ASS BLACK WOMAN You'd be angry, too . . . if you grew up poorer than poor in Harlem in the 1960s and '70s, a place of unrelenting violence, racism, crime, rape, scamming, drinking, and drugging . . . with a dad permanently checked out in Bellevue and a mom at the end of her rope raising you, your twin sister, and your two brothers, moving every time the money runs out—and doing what it takes to survive. But there's more to her story . . . Ke-Ke Quinones was whip smart and sassy, a voracious reader of everything from poetry to the classics. No matter what, 117th Street—where you could always count on someone to stand up for you—would always be home. And with every hard-knock lesson learned, Ke-Ke grew fiercer, unleashing her inner angry-ass black woman to get through it all. Is this her final chapter? Now, decades later, comatose in a hospital bed after a medical crisis, she reflects on her life—her success as a journalist and renowned author, her tragicomic memories of Harlem, her turbulent marriage, the birth of her daughter, future possibilities—all the while surrounded by her splintered family in all of their sound and fury. Will

she rise above once more?

Health Issues in the Black Community

Ronald L. Braithwaite 2009-10-22

Health Issues in the Black Community

THIRD EDITION "The outstanding

editors and authors of *Health Issues in the Black Community* have placed in clear perspective the challenges and opportunities we face in working to achieve the goal of health equity in America." –David Satcher, MD, PhD, 16th Surgeon General of the United States and director, Satcher Health Leadership Institute at Morehouse School of Medicine "Eliminating health disparities must be a central goal of any forward thinking national health policy. *Health Issues in the Black Community* makes a valuable contribution to a much-needed dialogue by focusing on the challenges of the black community."

–Marc Morial, Esq., president, National Urban League "Health Issues in the Black Community illuminates comprehensively the range of health conditions specifically affecting African Americans, and the health disparities both within the black community and between racial and ethnic groups. Each chapter, whether addressing the health of African Americans by age, gender, type of disease, condition or behavior, is well-detailed and tells an important story. Together, they offer practitioners, consumers, scholars, and policymakers a crucial roadmap to address and change the social determinants of health, reduce disparities, and create more equal treatment for all Americans." –Risa Lavizzo-Mourey, MD, MBA, president, Robert Wood Johnson Foundation "I recommend *Health Issues in the Black Community* as a must-read for anyone concerned about the future of the African American community. Health disparities continues to be one of the major issues confronting the black community. This book will help

to highlight the issues and keep attention focused on the work to be done." – Elsie Scott, PhD, president of the Congressional Black Caucus Foundation "This book is the definitive examination of health issues in black America—issues sadly overlooked and downplayed in our culture and society. I congratulate Drs. Braithwaite, Taylor, and Treadwell for their monumental book."

Parentology Dalton Conley 2014-03-18

An award-winning scientist offers his unorthodox approach to childrearing:

"Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments

are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

The Myth and Propaganda of Black Buying Power Jared A. Ball 2020-04-01

This Palgrave Pivot offers a history of and proof against claims of "buying power" and the impact this myth has had on understanding media, race, class and economics in the United States. For generations Black people have been told they have what is now said to be more than one trillion dollars of "buying power," and this book argues that commentators have misused this claim largely to blame Black communities for their own poverty based on squandered economic opportunity. This book exposes the claim as both a marketing strategy and myth, while also showing how that myth functions simultaneously as a case study for propaganda and commercial media coverage of economics. In sum, while "buying power" is indeed an economic and marketing phrase applied to any number of racial, ethnic, religious, gender, age or group of consumers, it has a specific application to Black America.

Resistance and Empowerment in Black Women's Hair Styling Elizabeth Johnson 2016-04-08 Elizabeth Johnson's *Resistance and Empowerment in Black Women's Hair Styling* develops the argument that one way Black women define themselves and each other, is by the way they style/groom their hair via endorsement by the media through advertisement, idealized identification of Black female celebrities, and encouragement by professional celebrity hair stylists

who serve as change agents. As a result, hair becomes a physical manifestation of their self-identity, revealing a private and personal mindset. Her research answers the following questions: What is the relationship between Black females' choice of hairstyles/grooming and transmitted messages of aesthetics by the dominant culture through culturally specific magazines?; What role do the natural hair blogs/vlogs play as a change agent in encouraging or discouraging consumers grooming their hair in its natural state?; What impact does a globalized consumer market of Black hair care products have on Hispanic/Latinas and Bi-Racial women?; Are Black female Generation Y members more likely to receive backlash for failure to conform their hair to dominant standards in their hair adornment in the workplace? Johnson thus demonstrates that the major concern from messages sent to Black women about their hair is its impact on Black identity. Thus, the goal of Black women should be to break with hegemonic modes of seeing, thinking, and being for full liberation. This critical and deep consciousness will debunk the messages told to Black women that their kinky, frizzy, thick hair is undesirable, bad, unmanageable, and shackling.

Imagining Black America Michael Wayne 2014-02-25 DIVScientific research has now established that race should be understood as a social construct, not a true biological division of humanity. In *Imagining Black America*, Michael Wayne explores the construction and reconstruction of black America from the arrival of the first Africans in Jamestown in 1619 to Barack Obama’s reelection. Races have to be imagined into existence and constantly reimagined as circumstances change, Wayne argues, and as a consequence the boundaries

of black America have historically been contested terrain. He discusses the emergence in the nineteenth century—and the erosion, during the past two decades—of the notorious “one-drop rule.” He shows how significant periods of social transformation—emancipation, the Great Migration, the rise of the urban ghetto, and the Civil Rights Movement—raised major questions for black Americans about the defining characteristics of their racial community. And he explores how factors such as class, age, and gender have influenced perceptions of what it means to be black. Wayne also considers how slavery and its legacy have defined freedom in the United States. Black Americans, he argues, because of their deep commitment to the promise of freedom and the ideals articulated by the Founding Fathers, became and remain quintessential Americans—the “incarnation of America,” in the words of the civil rights leader A. Philip Randolph.

Haunting Experiences Diane Goldstein
2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E.

Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts

Mighty Be Our Powers Perseus
2011-09-13 WINNER OF THE 2011 NOBEL PEACE PRIZE In a time of death and terror, Leymah Gbowee brought Liberia’s women together—and together they led a nation to peace. As a young woman, Leymah Gbowee was broken by the Liberian civil war, a brutal conflict that tore apart her life and claimed the lives of countless relatives and friends. Years of fighting destroyed her country—and shattered Gbowee’s girlhood hopes and dreams. As a young mother trapped in a nightmare of domestic abuse, she found the courage to turn her bitterness into action, propelled by her realization that it is women who suffer most during conflicts—and that the power of women working together can create an unstoppable force. In 2003, the passionate and charismatic Gbowee helped organize and then led the Liberian Mass Action for Peace, a coalition of Christian and Muslim women who sat in public protest, confronting Liberia’s ruthless president and rebel warlords, and even held a sex strike. With an army of women, Gbowee helped lead her nation to peace—in the process emerging as an international leader who changed history. *Mighty Be Our Powers* is the gripping chronicle of a journey from hopelessness to empowerment that will touch all who dream of a better world.

Mental Health Stigma in the Military Joie D. Acosta 2014
Despite the efforts of both the U.S. Department of Defense and the Veterans Health Administration to enhance mental health services, many service members are not regularly seeking needed care when they have mental health problems. Without appropriate treatment, these mental health problems can have wide-ranging and negative impacts on the quality of life and the social, emotional, and cognitive functioning of affected service members. The services have been actively engaged in developing policies, programs, and campaigns designed to reduce stigma and increase service members' help-seeking behavior. However, there has been no comprehensive assessment of these efforts' effectiveness and the

extent to which they align with service members' needs or evidence-based practices. The goal of this research was to assess DoD's approach to stigma reduction, how well it is working and how it might be improved. To address these questions, RAND researchers used five complementary methods: (1) literature review, (2) a microsimulation modeling of costs, (3) interviews with program staff, (4) prospective policy analysis, and (5) an expert panel. The priorities outlined in this report identify ways in which program and policy development and research and evaluation can improve understanding of how best to efficiently and effectively provide needed treatment to service members with mental illness.

Womanist Dictionary Thao Chu

2019-08-29 The linguistic aspect of Womanism offers learners values as any other social language. While most French learners get a glimpse into the history of Napoleon and many Chinese speakers are familiar with an Asian lifestyle, English non-native speakers like us need to understand the language in a broader scope. Since English is our shared method of communication, we have to adapt to not just one culture, but also variants in accents or vocabularies from multiple English-speaking countries. Similarly, Womanism serves the same purpose among the black community. By speaking Womanism, they are able to understand and embrace each other's values and virtues, while making their history known to the rest of the world.

Expanded Cinema Gene Youngblood
2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age,"

"intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, *Expanded Cinema* clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

Investing in Cultural Diversity and Intercultural Dialogue Unesco 2009
This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Be the One You Need Sophia A. Nelson 2022-06-28
From acclaimed journalist Sophia A. Nelson, the bestselling author of *The Woman Code*, comes a poignant, powerful, and revealing memoir providing life lessons that emphasize the importance of self-care, self-love, and self-understanding that will lead to freedom, healing from the past, and a better future. Sophia A. Nelson is a highly accomplished woman. Yet following a bout with Covid-19, caretaking for a sick parent during the pandemic, running a business, and being a mainstay on national television as a political pundit and legal analyst on CNN, MSNBC, the BBC, and Sirius XM, she realized that she was struggling internally even as she maintained her breakneck schedule. Like so many others, as an adult child of an alcoholic Nelson struggled with self-love and knowing her value despite her successes. As she came to learn, it was when she stopped feeling guilty and neglecting herself emotionally and started understanding the importance of self-care and nurturance that she found the freedom to truly live and thrive. Her message, *Be the One You Need*, reveals lessons illuminating for

readers that the answers we seek are always within us. Nelson's call does not mean we do not need other people--quite to the contrary--but that our first love and our priority must be to self. Good emotional health. Good physical health. Good spiritual health. Good relational health. The earlier we can figure this out and take care of these basic needs--love, connection, faith, and success--the better chance we have of a balanced, fulfilled life. In this thought-provoking book--at times sobering yet also uplifting and encouraging--Nelson speaks to readers from all walks of life: young people just starting out; those at mid-life trying to wrestle with what she calls "your second life"; and readers in their later years who still have time to forgive themselves and seek forgiveness where needed. Her purpose in this book is to encourage men and women alike to practice meaningful self-contemplation, self-care, and self-love. This book is for anyone who is still fighting demons from their childhood. For anyone who has been hurt too many times to count. For anyone who desperately wants a roadmap to break free from toxic family ties. Or simply for those who need to be reminded that until you take care of yourself first, you will have little to nothing of yourself to give to others. As the old saying goes: It's never too late to have a life, and it's never too late to change one.
