**Parentology** Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to

childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when

their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

*The Globalization of War* Michel Chossudovsky  
2015-01 America's hegemonic project in the post 9/11 era is the "Globalization of War" whereby the U.S.-NATO military machine coupled with covert intelligence operations, economic sanctions and the thrust of "regime change" is deployed in all major regions of the world. The threat of pre-emptive nuclear war is also used to black-mail countries into submission. This "Long War against Humanity" is carried out at the height of the most serious economic crisis in modern history. It is intimately related to a process of global financial restructuring, which has resulted in the collapse of national economies and the impoverishment of large sectors of the World population. The ultimate objective is World conquest under the cloak of "human rights" and "Western democracy." "Professor Michel Chossudovsky is the most realistic of all foreign

policy commentators. He is a model of integrity in analysis, his book provides an honest appraisal of the extreme danger that U.S. hegemonic neoconservatism poses to life on earth." Dr. Paul Craig Roberts, former Assistant Secretary of the U.S. Treasury "The Globalization of War comprises war on two fronts: those countries that can either be "bought" or destabilized. In other cases, insurrection, riots and wars are used to solicit U.S. military intervention. Michel Chossudovsky's book is a must read for anyone who prefers peace and hope to perpetual war, death, dislocation and despair." Hon. Paul Hellyer, former Canadian Minister of National Defence "Michel Chossudovsky describes globalization as a hegemonic weapon that empowers the financial elites and enslaves 99 percent of the world's population. "The Globalization of War" is diplomatic dynamite and the fuse is burning rapidly." Michael Carmichael, President, the

Planetary Movement

**Swahili Beyond the Boundaries** Alamin M. Mazrui

2007 Africa is a marriage of cultures: African and Asian, Islamic and Euro-Christian. Nowhere is this fusion more evident than in the formation of Swahili, Eastern Africa's lingua franca, and its cultures. Swahili Beyond the Boundaries:

Literature, Language, and Identity addresses the moving frontiers of Swahili literature under the impetus of new waves of globalization in the twentieth and twenty-first centuries. These momentous changes have generated much

theoretical debate on several literary fronts, as Swahili literature continues to undergo transformation in the mill of human creativity. Swahili literature is a hybrid that is being reconfigured by a conjuncture of global and local forces. As the interweaving of elements of the colonizer and the colonized, this hybrid formation provides a representation of cultural difference that is said to constitute a "third space," blurring existing boundaries and calling into question established identitarian categorizations. This cultural dialectic is clearly evident in the Swahili literary experience as it has evolved in the crucible of the politics of African cultural production. However, Swahili *Beyond the Boundaries* demonstrates that, from the point of view of Swahili literature, while hybridity evokes endless openness on questions of home and identity, it can simultaneously put closure on specific forms of subjectivity. In the process of this

contestation, a new synthesis may be emerging that is poised to subject Swahili literature to new kinds of challenges in the politics of identity, compounded by the dynamics and counterdynamics of post-Cold War globalization.

Betrayal of Public Trust Jacob T Kaimenyi 2020-02

The world over, integrity quotient in those bestowed with the responsibility to lead others is on a free fall. History is replete with many leaders betraying the trust bestowed upon them by their citizenry. Many a time, most people have found themselves flouting oaths of office even when they pledged to abide by certain ethical practices, the constitution, other laws, rules and regulations. Those who belong to diverse religious faiths have faltered too even though they have sworn not to do certain things in life. There are those who even fail to remember their marriage vows and have turned out to be very untrustworthy. The author - Prof. Jacob. T. Kaimenyi intends to appeal to those who wantonly destroy public trust with minimal regard to its negative consequences. The book is also meant to prick the conscience of all those people who have

taken different oaths and have sworn to abide by certain rules and regulations, that they should do so without wavering at any time. It a must read for all leaders at the family, communal, national and international levels.

Essays on the Anatomy of Expression in Painting

Sir Charles Bell 1806 First edition of Bell's (1774-1842) important study of the anatomy and physiology of facial expression. The expressions, attitudes, and movements of the human body had always interested scientists as well as artists, but never before had they been treated with such depth and conciseness. The work reflects Bell's brilliance as both artist and anatomist, and inspired Darwin's own *Expression of the Emotions* (1872), which he described Bell as one of the founders of the subject as a branch of science. **After Colonialism** Gerald Gaylard 2005 Africa's imagination has been dominated and informed by pressing social and political issues, and its fiction has reflected this in its commitment to social realism. However, in the late 20th and early 21st centuries, this tendency has been challenged by the rise to prominence of experimental fiction exhibiting postmodern and magical realist characteristics. *After Colonialism: African Postmodernism and Magical Realism* thoroughly examines this new fiction and its contribution to the liberation of Africa's

imagination. It finds, perhaps ironically, that a liberated imagination provides a powerful tool for understanding, and perhaps even resolving, the complex issues of postcolonial Africa.
