*How to Write a Successful Research Grant Application* Willo Pequegnat 2013-03-09 The Department of Health and Human Services has identified Acquired Immunodeficiency Syndrome (AIDS) as the foremost public health problem in the United States. The Centers for Disease Control (CDC) report that, as of December 31, 1994, there were 441,528 documented cases of AIDS in this country, and the number is increasing. AIDS is an illness characterized by a defect in natural immunity against disease. Many more individuals are known to be infected with Human Immunodeficiency Virus (HIV) but do not have symptoms or the defining characteristics of AIDS. The incubation period for AIDS may range from 1 to 10 or more years in adults and 6 months to several years in children. Infected persons appear to be capable of transmitting infection indefinitely, even if they remain asymptomatic. In order to increase the number of minority investigators conducting research on HIV infection and 1 AIDS, NIMH conducted a 3h-day technical workshop for minority investigators on July 24-27. 1990, in Fairlakes, Virginia. University-based research programs were asked to nominate investigators who were selected on the basis of a referred 1 0-page prospectus for a proposed research project. This procedure was used because NIMH wanted to be sure that the prospective investigators were established in a research environment that would pr

This valuable guide also contains key terms, case studies, examples of grants that were not managed effectively, and useful sample forms and templates.

**The Professor Is In** Karen Kelsky 2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

**Handbook of Scientific Proposal Writing** A.Yavuz Oruc 2011-10-25 Investigators, their home institutions, and funding agencies play significant roles in the development and outcomes of scientific projects. Submitting a proposal to a funding agency is only one dimension of a multivariable and complex funding process, and understanding this is a good first step toward unlocking the puzzle behind why some research proposals receive awards while others are declined. The Handbook of Scientific Proposal Writing offers researchers and research administrators a broad perspective on the process of initiating and conducting funded scientific research projects. Written for students and researchers in all fields and disciplines, this reference offers a holistic approach to conceiving and then converting new ideas into effective proposals. It focuses on the technical aspects of writing proposals rather than the fund-raising issues. Chapters provide full coverage of the scientific method, including information on how scientific research should be conducted. Providing the tools necessary to organize ideas and obtain the funds needed to effectively manage projects, the Handbook of Scientific Proposal Writing includes: 56 figures and 25 tables to help convey key ideas More than 150 citations that provide pointers to additional sources for further reading Examples to help the reader ease through more abstract concepts End-of-chapter questions to stimulate further examination and comprehension

**Funding Your Research in the Humanities and Social Sciences** Barbara L. E. Walker 2017-07-20 Grants and fellowships are increasingly essential to an academic career, and competition over federal and foundation funding is fiercer than ever. Yet there has hitherto been little training available for this genre of writing. Funding Your Research in the Humanities and Social Sciences demystifies the process of writing winning grant proposals in the humanities and social sciences. Offering practical guidance, step-by-step instructions, and examples of successful proposals, Walker and Unruh outline the best practices to crack the proposal writing code. They reveal the most common peeves of proposal reviewers, and offer advice on how to avoid frequent problem areas in conceptualizing and crafting a research proposal in the humanities and social sciences. Contributions from agency and foundation program officers offer the perspective from the other side of the proposal submission portal, and new research funding trends, including crowdfunding and public scholarship, are also covered. This book is essential reading for all those involved in funding applications. Graduate students, research administrators, early career faculty members, and tenured professors alike will gain new and effective strategies to write successful applications.
