Bloom's Taxonomy of Measurable Verbs - Utica College

knowledge, skills, attitudes, behaviors and abilities. The theory is based upon the idea that there are levels of observable actions that indicate something is happening in the brain (cognitive activity.) By creating learning objectives using measurable verbs, you indicate explicitly what the student must do in order to demonstrate learning.

Professional Standards for Educational Leaders - National...

In practice, these domains do not function independently but as an interdependent system that propels each student to academic and personal success. They, and the Standards that represent them, can be understood in three related clusters. The first cluster is Curriculum, Instruction and Assessment, and Community of Care and Support for Students.
