I thought that the poisonous swamp surrounding my small island would have protected me from all the drama, but what did I see staggering my way? A nasty, putrid zombie! And now I'm expected to save this undead world from

It's Not My Fault Henry Cloud 2010-08-24 What seems like just a common, no-harm-done excuse-"It's not my fault!"-is often a dangerous trap, say Drs. Henry Cloud and John Townsend, because people don't recognize what the blaming mindset does to them. It not only keeps them from overcoming the effects of all that they can't control-like other people, circumstances and genetics-but separates them from a solution. And when they give away the ownership of their life, they end up losing the one opportunity they have to fulfill their dreams and enjoy God's best. Using eight principles, a variety of true stories and their years

of experience as professional psychologists, Cloud and Townsend enlighten readers on how to make empowering choices- and how to build the life they want to live. It may seem impossible but it's true: taking personal responsibility is not only liberating, it is the best- and perhaps the only-way for a person to get what they really want out of life.

No Fault, No Blame, No Excuse Cliff Bond 2014-04

This is an account of the author's work with addicted clients and their codependent families in recovery from addiction, as well as an exploration of the excessive shame, guilt, fault, blame, and excuses that go along with it. What worked for them can surely apply to us all, even if our stories might not be quite as extreme. ?Tell me a story? is not just for children to say. Read these stories for yourself, and appreciate the wisdom and guidance that can come from practical application of truth that fits everyone's story. ?In the beginning was the Word, ? was said by the Apostle John, as the opening

statement in his record of the Christ. ?In the beginning was the Story? would not be a bad translation either.

No Excuse Allen Robinson
2022-02-22 When we think about the Christian life, we must look at all the evidence the Word of God has given us and come to the conclusion that we must examine our hearts to see the call to live in obedience through the new covenant that we have been given through Jesus Christ. The evidence is crystal clear. We are called as followers of Christ to be committed to living a life focused on Him. A faith-filled life requires us to address each area of our life that does not fit our Christian testimony and correct those areas to help experience the fullness of an active Christian life.

[The New Business of Acting](#) Brad Lemack 2010-08-11 In an expanded and updated

follow up to his popular first book, *The Business of Acting: Learn the Skills You Need to Build the Career You Want*, talent manager Brad Lemack offers both young, new-to-the-business and “working” actors a vital perspective on the changing landscape in which they seek to launch and grow (or to reinvent) their professional careers. *The New Business of Acting: How to Build a Career in a Changing Landscape* teaches actors how to be smart, proactive and strategic throughout their career journeys. Lemack teaches actors the critical, non-performance skills they need to build the careers they want – and how to apply those skills in positive, professional and productive ways. *The New Business of Acting*, with a foreword by Isabel Sanford, the Emmy Award-winning star of the long running television series *The Jeffersons*, explores the revolution taking place in

how business is conducted and how those dramatic changes impact how actors must conduct the business of their careers. This empowering new book builds on the lessons taught in *The Business of Acting*, while addressing how to apply those lessons to the digital and economic landscape that is the “new” business of acting. Key chapters explore the changing roles of agents and managers, the new demands on casting directors in the new landscape, the importance of creating, protecting and honoring your “brand,” emotional, physical and fiscal fitness in a challenging economy, and guidelines for seeking out and getting a head shot that fits the frame of the new business. Readers will learn the art of managing expectations, a required skill in knowing how to act (and when not to) on the global Internet stage of self-submission opportunities,

and, perhaps most important for the young actor, those about to or just entering the business will discover what they must know to make a healthy, happy and empowered transition from student of the performing arts to wanting-to-be-working, professional actor. Readers will also learn how to create and launch both their "brand" and an Action Plan for career success that teaches them how to effectively and strategically use the tools introduced in the book, and how to be a smart actor implementing their plan all along their journey. It's not about talent and performance; it's about perspective, planning and process.
