## **The Bologna Process and Its Global**

**Strategy** Hannah Moscovitz 2020-03-27 This book critically reflects on the international function of the Bologna Process by exploring motivations and interests behind its 'global strategy' as well as how the reforms have been perceived and applied beyond Europe. Since its initiation in 1999, the Bologna Process has evolved into an important example of regional higher education policy coordination. Now with 48 signatory states both within and outside the European Union, the Bologna reforms have pushed forward an ambitious agenda for a

European Higher Education Area (EHEA), and the EU specifically as it aims to consolidate its knowledge-economy. Alongside its regional focus, the Bologna Process has also promoted an international reach through its 'global strategy'. Through this externalisation, the Bologna Process has become a point of reference for higher education internationalisation worldwide. Featuring examples of Bologna's 'reach' from Oceania to North America and in between, the book offers a timely contribution to the understanding of the reform's global influence. As a whole the contributions offer important insights to the understanding and conceptualisation of the EU's global influence, comparative regionalism and global higher education development more broadly. This book was originally published as a special issue of the European Journal of Higher Education.

*Development Through the Lifespan* Laura E. Berk 2013-08-05 Laura Berk's *Development Through the Lifespan* is relied upon in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, cutting-edge consideration of the interrelationships between heredity and environment, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. This new edition continues to offer students research-based practical applications that they can relate to their personal and professional lives. Laura Berk, renowned

professor and researcher, has revised the text with new pedagogy, a heightened emphasis on the interplay between heredity and environment, and an enhanced focus on many social policy issues, while emphasizing the lifespan perspective throughout. The latest theories and findings in the field are made accessible to students in a manageable and relevant way. Berk's signature storytelling style invites students to actively learn beside the text's "characters." Students are provided with an especially clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains-physical, cognitive, emotional, social-throughout the text narrative and in special features. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. While carefully considering the complexities of human development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, cross-cultural, and multicultural examples. Strengthening the connections among developmental domains and of theory and research with applications, this edition's extensive revision brings forth the most recent scholarship, representing the changing field of human development.
