Madrid, 1931-1934 Santos Juliá 1984 A los trabajos que sobre la 11 República española ha publicado Santos Juliá se añade ahora este libro que obtuvo el premio "Ortega y Gasset" Villa de Madrid (1982). En él se intenta reconstruir minuciosamente el proceso y los determinantes que convirtieron la fiesta popular con que Madrid celebró la instauración de la República en el abierto enfrentamiento de clases que caracterizó la vida madrileña durante el invierno de 1933-34. A la par, y por el hecho de reconstruir este proceso en un espacio reducido -una ciudad- aunque sumamente significativo -Madrid-, el autor propone un modelo de interpretación de las luchas de clases urbanas durante la 11 República que, más allá de sus determinantes políticos, tenga en cuenta el propio desarrollo de la ciudad, las transformaciones de su estructura, los procesos migratorios, la crisis que afectó a sus principales industrias, el tipo de sus organizaciones obreras y patronales y, en fin, la dinámica de los discursos y las prácticas de clase. De acuerdo con esos presupuestos metodológicos, el libro concede una atención especial a la fiesta como momento fundante de la República para desembocar, tras el análisis de la cristalización de conciencias enfrentadas de clase, en el estudio de las diferentes formas de lucha de los dos sindicatos obreros y las distintas agrupaciones patronales. El "pueblo todo entero" que aparece como sujeto del primer capítulo del libro se convertirá, durante este corto y denso proceso, en el "frente obrero" y el "bloque patronal" que aparecen radicalmente

enfrentados en su última parte. Santos Juliá es profesor del Departamento de Ciencias Políticas y Sociología de la UNED. Ha publicado, en diversas revistas y obras colectivas, una veintena de artículos sobre temas relacionados con la II República y es autor de *La izquierda del, PSOE, 1935-36* y de *Orígenes del Frente Popular en España*, aparecidos en esta misma editorial. *Sports Law* Patrick K. Thornton 2010-02-04 *Sports Law* looks at major court cases, statutes, and regulations that explore a variety of legal issues in the sports industry. The early chapters provide an overview of sports law in general terms and explore its impact on race, politics, religion, and everyday affairs. Later chapters address hot button issues such as gender equity, drug testing, and discrimination. Written from a sport management perspective, rather than from a lawyer's, this text covers all the major areas presented in sports law today including: cases relating to torts, contracts, intellectual property, and agents. Factual scenarios throughout the text allow students to critically examine and apply sport management principles to legal issues facing the sports executive. The Yugo Jason Vuic 2011-03-01 Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's *Car Talk* declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

comprehensive, richly illustrated appraisal of the

life of this automotive design giant. Few automotive designers have as impressive a resume as Tom Tjaarda. Among automotive enthusiasts, his name is synonymous with the De Tomaso, Ferrari, Fiat, Ford, Innocenti, and Lancia marques, but he also is responsible for the successful workaday Ford Fiesta. Raised in Detroit when the American Dream was beating out its rock 'n' roll rhythm, Tjaarda moved to Europe, where he had a ringside seat at the heart of automotive styling activities in the Mecca of vehicle design, Turin, in its heyday. The lessons he learned there helped make him one of the most influential and important designers of the second half of the twentieth century. Tom Tjaarda: Master of Proportions is a comprehensive, richly illustrated appraisal of the life of this design giant, featuring all his designs, both automotive and in other fields.
