Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to

scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Barely a Spark D. B. Mcnicol 2013-11-11 Police Sergeant Jim Sanders has been appointed the Acting Police Chief while his boss takes a vacation in Montana. Jim thinks two weeks will be a breeze, crime isn't a big thing in the small town of Bradford, Pennsylvania. Was it an accident? Maybe suicide? Or could it have been something more sinister. John Crocker was not a well liked man. He smoked too much, drank too much, and gambled too much. But even he had a family and they deserved to know the truth. Small town Klondike, up the hill from Bradford, suddenly sees a spike in vandalism. Cabins ransacked, cars trashed - who is responsible? Summer tourist kids or someone more menacing? Sometimes, two weeks can seem like a year...

London's Lost Rivers Tom Bolton 2011-09-08 A series of walks along the routes of eight lost rivers in London, with richly detailed anecdotes outlining the history of each river's route, origins and decline. When we think of London's river, the vast thoroughfare of the Thames immediately

springs to mind. But this ancient city was built around other rivers too – and traces of these still remain, for those who know where to look. London's Lost Rivers takes the reader on a series of walks along the routes of eight lost rivers, combining directions for walkers with richly detailed anecdotes outlining the history of each river's route, origins and decline. Tom Bolton reveals a secret network that spreads across the city, from picturesque Hampstead in the North to the hidden suburbs of South London, and runs beneath some of London's most iconic and historic sites. These London pasts are brought to vivid life, populated by characters both famous and infamous, including politicians, forgers, actors, architects, athletes, monarchs and murderers. Evocative, witty and engaging, London's Lost Rivers invites both visitors to the city and lifelong Londoners to explore another side of London and its rich history, whether on foot or in the imagination.

Strange Country Mark Dapin 2008-11-01 "This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up." As anyone who's ever read Mark Dapin's column and features in Good Weekend knows, he's an immensely funny, acute and vivid observer of Australian life. In *Strange Country*, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

Bourne to Rally Possum Bourne 2003 Possum Bourne: rally driver, sporting icon, family man, team-builder and 'great bloke'. Three-time winner of the Asia-Pacific Rally Championship, winner seven times in a row of the Australian Rally Championship, and eight times the best placed New Zealand driver in the Rally of New Zealand. In 2003, he finally achieves his long cherished dream of competing in the World Rally Championship, but is fatally injured in a freak car crash. This is the story of how his positive attitude, his determination to succeed, and his ability to inspire others to help him brought him motorsport fame. "Very few New Zealanders pass the first name test - instantly recognisable when just their first name is used. Ed Hillary, Zinzan Brooke, Jonah Lomu, Stacey Jones and Onny Parun are or have been examples of this rudimentary litmus test of fame. Possum Bourne was another." Joseph Romanos

Concept and Application of Transdisciplinarity in Intellectual Discourse and Research Hester du Plessis 2014-02-01 In the past four decades, transdisciplinarity has gained conceptual and practical traction for its transformative value in accounting for the complex challenges besetting humankind, including social relations and natural ecosystems. The need to

develop frameworks for joint problem-solving involving diverse stakeholders is unquestionable. Besides generating inclusivity, which embraces academia, civil society, and policymakers in the public and private sectors, transdisciplinarity allows for the appreciation of phenomena from a multiplicity of angles and affords societies creative ways of seeking solutions to challenges that may appear intractable. This book puts forward alternatives within this arena and attempts to directly respond to the multilayered challenges of diffuse disciplines, interlinked socioeconomic problems, impacts of globalization, technological advancements, environmental concerns, food security, and more.

Introduction to Radar Using Python and MATLAB Lee Andrew (Andy)

Harrison 2019-10-31 This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

Dramacon Ultimate Edition Svetlana Chmakova 2008-10-14 Set at an anime convention, follows the romantic adventures of seventeen-year-old amateur writer Christie Leroux over the course of several years.

Upon the Gardens of Epicurus William Temple 2004 Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawaggi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.
