Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Happiness--Found in Translation Tim Lomas 2019-09-17 A beautifully illustrated dictionary of words from around the world that describe experiences of happiness for which there are no equivalents in the English language. Have you ever had a feeling that you couldn't quite describe because there was no word in English that captured it? Our ability to fully experience moments of joy in our lives can be limited by the words at our disposal. In this magical book, psychologist Tim Lomas surveys words from around the world to help readers put their finger on feelings of happiness that before might have lingered for only a moment in their mind's eye before disappearing. The ideal gift for language lovers, or for anyone looking for a megadose of pure joy, Happiness--Found in Translation features such "untranslatable" words as: Bazodee: A Creole (Trinidad and Tobago) word to describe a dizzy and dazed happiness, a bewildered, discombobulated joy. Charmolypi: A Greek word for the sad, joy-making sorrow when happiness and sadness intermingle. Wú wéi: A Chinese term for natural, spontaneous, and effortless action, skilfully flowing with the currents of life. Happiness--Found in Translation gives readers access to the great happiness that the world's languages have to offer.

Priority mission top success to complete. Code name: Operation Havoc." Thus speaks Pygmy, one of a handful of young adults from a totalitarian state sent to the United States, disguised as exchange students, to live with typical American families and blend in, all the while planning an unspecified act of massive terrorism. Palahniuk depicts Midwestern life through the eyes of this thoroughly indoctrinated little killer, who hates Americans with a passion, in this cunning double-edged satire of a xenophobia that might, in fact, be completely justified.

How to Change Your Mind Michael Pollan 2018-05-15 "Pollan keeps you turning the pages . . . cleareyed and assured." —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs-- and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

Healing Earthquakes Jimmy Santiago Baca 2007-12-01 An award-winning work of brilliant passion and epic poetry that vividly captures the impossible truth of an entire romance from beginning to end. Jimmy Santiago Baca introduces us to a man and woman before they are acquainted and re-creates their first meeting, falling in love, their decision to make a family, the eventual realization of each other's irreconcilable faults, the resulting conflicts, the breakup and hostility, and, finally, their transcendence of the bitterness and resentment. Throughout the relationship we are privy to the couple's astonishing range of emotions: the anguish of loneliness, the heady rush of new love, the irritations and joys of raising children, the difficulties in truly knowing someone, the doldrums of breakup, and so on. It is impossible not to identify with these characters and to recognize one's own experience in theirs. As he weaves this story, Baca explores many of his traditional themes: the beauty and cruelty of the desert lands where he has spent much of his life, the grace and wisdom of animals, the quiet dignity of life on small Chicano farms. An extraordinary work that "expresses both bliss and heartache with lyric intensity" (Booklist) from one of America's finest poets. "Baca is a force in American poetry . . . His words heal, inspire, and elicit the earthly response of love." —Garrett Hongo "[Baca] writes with unconcealed passion . . . what makes his writing so exciting to me is the way in which it manifests both an intense lyricism and that transformative vision which perceives the mythic and archetypal significance of life-events." —Denise Levertov
