Disabling Characters Patricia A. Dunn 2015 <Disabling Characters provides detailed analyses of selected young adult (YA) novels and short stories. It looks at the relative agency of the disabled character, the behavior of the other characters, the environment in which the character must live, the assumptions that seem to be underlying certain scenes, and the extent to which the book challenges or perpetuates an unsatisfactory status quo. Class discussions about disability-themed literature, however well intentioned, have the potential to reinforce harmful myths or stereotypes about disability. In contrast, discussions informed by a critical disability studies perspective can help readers develop more sophisticated views of disability and contribute to a more just and inclusive society. The book examines discussion questions, lesson plans, study guides, and other supplemental materials aimed at students studying these texts, and it suggests more critical questions to pose about these texts and the positive and/or negative work they do, perhaps subliminally, in our culture.

This book is a much-needed addition to college classes in YA literature, literary analysis, methods of teaching literature, disability studies, cultural studies, contemporary criticism, special education, and adolescent literacy.

Transforming Talk into Text Thomas M. McCann 2014-08-08 Author Thomas McCann invites readers to rethink their approach to teaching writing by capitalizing on students' instinctive desire to talk. Drawing on extensive classroom research, he shows teachers how to craft class discussions that build students' skills of analysis, problem-solving, and argumentation as a means of improving student writing. McCann demonstrates how authentic discussions immerse learners in practices that become important when they write. Chapters

feature portraits of teachers at work, including transcripts that reveal patterns of talk across a set of lessons. Interviews with the teachers and samples of student writing afford readers a deeper understanding of process. Students also report on how classroom discussions supported their effort to produce persuasive, argument-driven essays.

The Most Dangerous Game Richard Connell 2021-01-01  **The Most Dangerous Game** by Richard Connell

 **The Most Dangerous Game**, also published as *The Hounds of Zaroff*, is a short story by Richard Connell first published in *Collier's* magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s.  **The Most Dangerous Game** by Richard Connell  Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt.

After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan.  **The Most Dangerous Game** by Richard Connell  Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for

sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. □□ The Most Dangerous Game by Richard Connell □□ After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive.

Adolescence in the 21st Century Frances R. Spielhagen 2013-12-01 What is wrong with young people today? This question has captured the concerns of the older generation about the habits and attitudes of the adolescents in their midst. The assumption is that there is indeed something wrong with young people. Even Plato must have rolled his eyes, as he relates his diatribe about the adolescents of Greece. Is the current generation of adolescents less motivated or less focused than their parents? How will they respond to the challenges facing them as they progress to adulthood? When, in fact, do they become adults? Although every generation draws upon their own unique and varied experiences, the speed of our current societal changes has created a very different adolescent passage for contemporary youth than ever before. The world as we know it has changed significantly and because of it, much of today's youth is decidedly different from their parents. Adolescence itself has shifted dramatically. Young children are displaying adolescent behaviors well before they are ready to act on or understand their meaning, and older adolescents are staying perpetual children. As one writer put it, "the conveyor belt that transported adolescents into adulthood has broken down". This book provides an interdisciplinary collection of research on the constants and challenges faced by young people today. Failure to launch? Social media? Economic stagnation? For the generation that is coming of age in a post-terrorist world and in the midst of economic upheaval, the challenges might seem

insurmountable. However, in this book, scholars from across the academy, from sociology, psychology, education, philosophy, science, and business, explain how the young people today are responding to the constants of growth and change in adolescence and the unique challenges of life in the 21st century.

17,000 Classroom Visits Can't Be Wrong John V. Antonetti 2015-02-20 "Most educators are skilled at planning instruction and determining what they will do during the course of a lesson. However, to truly engage students in worthwhile, rigorous cognition, a profound shift is necessary: a shift in emphasis from teaching to learning. Put another way, we know that whoever is doing the work is also doing the learning—and in most classrooms, teachers are working much too hard. Authors John V. Antonetti and James R. Garver are the designers of the Look 2 Learning model of classroom walkthroughs. They've visited more than 17,000 classrooms—examining a variety of teaching and learning conditions, talking to students, examining their work, and determining their levels of thinking and engagement. From this vast set of data, they've drawn salient lessons that provide valuable insight into how to smooth the transition from simply planning instruction to designing high-quality student work. The lessons John and Jim have learned from their 17,000 (and counting) classroom visits can't be wrong. They share those lessons in this book, along with stories of successful practice and practical tools ready for immediate classroom application. The authors also provide opportunities for reflection and closure designed to help you consider (or reconsider) your current beliefs and practices. Throughout, you will hear the voices of John and Jim—and the thousands of students they met—as they provide a map for shifting the classroom dynamic from teaching to learning."

The Better Writing Breakthrough Eleanor Dougherty 2016-03-04 Every teacher knows the challenge of trying to engage reluctant readers and struggling writers—students whose typical response to a writing prompt is a few sentence fragments scribbled on a sheet of paper followed by an elaborate shrug of the shoulders. The best way to engage less confident readers and writers is to give them something powerful to think about. The Discourse and Writing Cycle explores writing as a means to focus student thinking, fuel deeper learning, and

build complex understanding in English, social studies, math, and science. This field-tested approach from well-respected experts Eleanor Dougherty, Laura Billings, and Terry Roberts is designed for use in grades 4–12. The book explores the three interrelated sequences of the cycle—the Discourse Sequence, the Transition to Writing Sequence, and the Writing Sequence—and includes classroom examples and sample lesson plans from across the content areas. The cycle will inspire you as a teacher and help you to inspire your students to write with confidence and competence. “How often we dim or extinguish the creative sparks that can come from good writing! William Butler Yeats proclaimed that ‘Education is not the filling of a pail, but the lighting of a fire.’ This book lights the fire for the teaching of writing.” —John Hattie, author of the Visible Learning books

Observing Teacher Identities through Video Analysis Amy Vetter 2015-09-25 Teaching is often seen as an identity process, with teachers constructing and enacting their identities through daily interactions with students, parents and colleagues. This volume explores how conducting video analysis helps teachers gain valuable perspectives on their own identities and improve classroom practice over time. This form of interactional awareness fosters reflection and action on creating classroom conditions that encourage equitable learning. The volume follows preservice English teachers as they examine video records of their practice during student teaching, and how the evidence impacts their development as literacy teachers of diverse adolescents. By applying an analytic framework to video analysis, the authors demonstrate how novice teachers use positioning theory to transform their own identity performance in the classroom. Education scholars, teachers and professional developers will greatly benefit from this unique perspective on teacher identity work.

American Indian Stories Zitkala-Sa 2015 In the early morning our simple breakfast was spread upon the grass west of our tepee. At the farthest point of the shade my mother sat beside her fire, toasting a savory piece of dried meat. Near her, I sat upon my feet, eating my dried meat with unleavened bread, and drinking strong black coffee. The morning meal was our quiet hour, when we two were entirely alone. At noon, several who chanced to be passing by stopped to rest, and to share our luncheon with us, for they were sure of our hospitality. My uncle, whose death my mother ever lamented, was one of our nation's bravest warriors. His name was on the lips of old men when talking of the proud feats of valor; and it was mentioned by younger men, too, in connection with deeds of gallantry. Old women praised him for his kindness toward them; young women held him up as an ideal to their sweethearts. Every one loved him, and my mother worshiped his memory. Thus it happened that even strangers were sure of welcome in our lodge, if they but asked a favor in my uncle's name. Though I heard many strange experiences related by these wayfarers, I loved best the

evening meal, for that was the time old legends were told. I was always glad when the sun hung low in the west, for then my mother sent me to invite the neighboring old men and women to eat supper with us. Running all the way to the wigwams, I halted shyly at the entrances. Sometimes I stood long moments without saying a word. It was not any fear that made me so dumb when out upon such a happy errand; nor was it that I wished to withhold the invitation, for it was all I could do to observe this very proper silence. But it was a sensing of the atmosphere, to assure myself that I should not hinder other plans. My mother used to say to me, as I was almost bounding away for the old people: "Wait a moment before you invite any one. If other plans are being discussed, do not interfere, but go elsewhere." The old folks knew the meaning of my pauses; and often they coaxed my confidence by asking, "What do you seek, little granddaughter?"

Arranged Marriage Chitra Banerjee Divakaruni 2009-09-15 Although Chitra Divakaruni's poetry has won praise and awards for many years, it is her "luminous, exquisitely crafted prose" (Ms.) that is quickly making her one of the brightest rising stars in the changing face of American literature. Arranged Marriage, her first collection of stories, spent five weeks on the San Francisco Chronicle bestseller list and garnered critical acclaim that would have been extraordinary for even a more established author. For the young girls and women brought to life in these stories, the possibility of change, of starting anew, is both as terrifying and filled with promise as the ocean that separates them from their homes in India. From the story of a young bride whose fairy-tale vision of California is shattered when her husband is murdered and she must face the future on her own, to a proud middle-aged divorced woman determined to succeed in San Francisco, Divakaruni's award-winning poetry fuses here with prose for the first time to create eleven devastating portraits of women on the verge of an unforgettable transformation.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking

about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.
