Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch 2013-03-01 Gender Ideologies and Military Labor Markets in the U.S. offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women’s military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women’s military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.

Emerging Powers in International Politics Mathilde Chatin 2019-04-30 The rise of large and rapidly growing nations is having a significant impact on the global order, as their expanding influence reshapes the structure of power in the international system. These emerging powers are increasingly asserting themselves as major actors on the global scene. Leading this cadre of emerging powers are five nations referred to as the BRICS – Brazil, Russia, India, China and South Africa. This book takes inventory of both the individual and collective soft power of this rising bloc of nations. Having embraced the potential of this newly emphasized type of power as a means of generating international influence, these nations have dedicated substantial effort and resources to implementing a soft power offensive. This book was originally published as a special issue of the Journal of Political Power.

Luke: Jesus Christ, Savior for the Nations Practical Christianity Foundation 2020-08-08 Jesus Christ is a light that will reveal salvation to the nations... So wrote Luke, the only Gentile writer found in the New Testament Scriptures. Luke saw in Jesus Christ the fulfillment of Isaiah's prophecy: "Arise! Shine! Your light has come, and the glory of the Lord has dawned. Nations will come to your light, and kings to the brightness of your dawn." In clearly described themes, Luke takes his readers on a journey of discovery, finding in Jesus Christ, not only the light for Israel, but for people of all nations of the world. "The book you hold in your hands is no dry seminary text, nor is it a feel-good self-help devotional. There is a wealth of information here, presented in a clear and accessible writing style that makes this commentary a great read for new believers and seasoned theologians alike. Luke's Gospel is examined not in a vacuum, but in the context of the totality of Scripture where frequent references to supporting verses serve as roadsigns, assuring the reader that he is on the right road. This commentary informs and delights!"

International Responses to Mass Atrocities in Africa Kurt Mills 2015-10-16 Since the end of World War II and the founding of the United Nations, genocide, crimes against humanity and other war crimes—mass atrocities—have been explicitly illegal. When such crimes are committed, the international community has an obligation to respond: the human rights of the victims outweigh the sovereignty claims of states that engage in or allow such human rights violations. This obligation has come to be known as the responsibility to protect. Yet, parallel to this responsibility, two other related responsibilities have developed: to prosecute those responsible for the crimes, and to provide humanitarian relief to the victims—what the author calls the responsibility to palliate. Even though this rhetoric of protecting those in need is well used by the international community, its application in practice has been erratic at best. In *International Responses to Mass Atrocities in Africa*, Kurt Mills develops a typology of responses to mass atrocities, investigates the limitations of these responses, and calls for such responses to be implemented in a more timely and thoughtful manner. Mills considers four cases of international responses to mass atrocities—in Rwanda, the Democratic Republic of the Congo, Uganda, and Darfur—putting the cases into historical context and analyzing them according to the typology, showing how the responses interact. Although all are intended to address human suffering, they are very different types of actions and accomplish different things, over different timescales, on different orders of magnitude, and by very different types of actors. But the critical question is whether they accomplish their objectives in a mutually supportive way—and what the trade-offs in using one or more of these responses may be. By expanding the understanding of international responsibilities, Mills provides critical analysis of the possibilities for the international community to respond to humanitarian crises.

Unconventional Warfare (Special Forces, Book 1) Chris Lynch 2018-11-27 Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.
