[A History of the Theatre Costume Business](#) Triffin I. Morris 2021-09-30 A History of the Theatre Costume Business is the first-ever comprehensive book on the subject, as related by award-winning actors and designers, and first hand by the drapers, tailors, and craftspeople who make the clothes that dazzle on stage. Readers will learn why stage clothes are made today, by whom, and how. They will also learn how today's shops and ateliers arose from the shops and makers who founded the business. This never-before-told story shows

that there is as much drama behind the scenes as there is in the performance: famous actors relate their intimate experiences in the fitting room, the glories of gorgeous costumes, and the mortification when things go wrong, while the costume makers explain how famous shows were created with toil, tears, and sweat, and sometimes even a little blood. This is history told by the people who were present at the creation – some of whom are no longer around to tell their own story. Based on original research and first-hand reporting, A History of the Theatre Costume Business is written for theatre professionals: actors, directors, producers, costume makers, and designers. It is also an excellent resource for all theatregoers who have marveled at the gorgeous dresses and fanciful costumes that create the magic on stage, as well as for the

next generation of drapers and designers.

**Working Backstage** Christin Essin 2021-09-20 *Working Backstage* illuminates the work of New York City's theater technicians, shining a light on the essential contributions of unionized stagehands, carpenters, electricians, sound engineers, properties artisans, wardrobe crews, makeup artists, and child guardians. Too-often dismissed or misunderstood as mere functionaries, these technicians are deeply engaged in creative problem-solving and perform collaborative, intricate choreographed work that parallels the performances of actors, singers, and dancers onstage. Although their contributions have fueled the Broadway machine, their contributions have been left out of most theater histories. Theater historian Christin Essin offers clear and evocative descriptions of this invaluable labor, based on her archival research and interviews with more than 100 backstage technicians, members of the New York locals of the International Alliance of Theatrical Stage Employees. A former theater technician herself, Essin provides readers with an insider's view of the Broadway stage, from the suspended lighting bridge of electricians operating followspots for *A Chorus Line*; the automation deck where carpenters move the massive scenic towers for *Newsies*; the makeup process in the dressing room for *The Lion King*; the offstage wings of *Matilda*

the Musical, where guardians guide child actors to entrances and exits.

*Working Backstage* makes a significant contribution to theater studies and also to labor studies, exploring the politics of the unions that serve backstage professionals, protecting their rights and insuring safe working conditions. Illuminating the history of this typically hidden workforce, the book provides uncommon insights into the business of Broadway and its backstage working relationships among cast and crew members.
