The Triumph of Liberty Jim Powell 2000 Contains biographical portraits of the men and women throughout history who have fought for liberty and freedom. **Teaching Practice in Two Jamaican Colleges** Hyacinth Paulina Rose 2008 Jamaica, like other countries has been plagued with the problem of providing quality education for its growing population. Research evidence supports the claim that it is crucial to change the way prospective teachers are trained for them to be relevant in our continuously changing global village. Teacher education programs must tackle serious issues acquired and embedded in the education system, the curriculum, and the social and environmental conditions that impinge on the performance of prospective teachers. Relevant published literature on teacher education and teaching practice in Jamaica, and the Caribbean has not been readily available, hence the reliance on research from North America to inform, and enrich teacher educators' understanding of the teaching- practice experience at the teaching-practice sites. This book therefore provides an opportunity for professionals in teacher education, prospective teachers, and people genuinely interested in education to examine research, the authentic experiences, and perceptions of student teachers and their supervisory teachers, during the teaching practice exercise.

Silver People Margarita Engle 2014-03-25 One hundred years ago, the world celebrated the opening of the Panama Canal, which connected the world’s two largest oceans and signaled America’s emergence as a global superpower. It was a miracle, this path of water where a mountain had stood—and creating a miracle is no easy thing. Thousands lost their lives, and those who survived worked under the harshest conditions for only a few silver coins a day. From the young "silver people" whose back-breaking labor built the Canal to the denizens of the endangered rainforest itself, this is the story of one of the largest and most difficult engineering projects ever undertaken, as only Newbery Honor-winning author Margarita Engle could tell it.

Teaching Hope The Freedom Writers 2009-08-18 Incredible stories of struggle, redemption, and the power of education from the teachers taught by Erin Gruwell and the #1 New York Times bestselling authors of The Freedom Writers Diary Don’t miss the public television documentary Freedom Writers: Stories from the Heart “These are the most influential professionals most of us will ever meet. The effects of their work will last forever.”—From the foreword by Anna Quindlen Now documented in a bestselling book, feature film, and public television documentary, the Freedom Writers phenomenon came about in 1994, when Erin Gruwell stepped into Room 203 and began her first teaching job out of college. Long Beach, California, was still reeling from the deadly violence that erupted during the Rodney King riots, and the kids in Erin’s classroom reflected the anger, resentment, and hopelessness of their community. Undaunted, Erin fostered an educational philosophy that valued and promoted diversity, tolerance, and communication, and in the process, she transformed her students’ lives, as well as her own. Erin Gruwell and the Freedom Writers went on to establish the Freedom Writers Foundation to replicate the success of Room 203 and provide all students with hope and opportunities to realize their academic potential. Since then, the foundation has trained more than 800 teachers around the world. Teaching Hope unites the voices of these Freedom Writer Teachers, who share uplifting, devastating, and poignant stories from their classrooms, stories that provide insight into the struggles and triumphs of education in all of its forms. Mirroring an academic year, these dispatches from the front lines of education take us from the anticipation of the first day to the disillusionment, challenges, and triumphs of the school year. These are the voices of teachers who persevere in the face of intolerance, rigid administration, and countless other challenges, and continue to reach out and teach those who are deemed unteachable. Their stories inspire everyone to make a difference in the world around them.

Among Schoolchildren Tracy Kidder 1989-09-06 The Pulitzer Prize–winning author’s classic, “brilliantly illuminated” account of education in America (TheNew York Times Book Review). Mrs. Zajac is feisty, funny, and tough. She likes to call herself an “old-lady teacher.” (She is thirty-four.) Around Kelly School, she is infamous for her discipline: “She is mean, bro,” says one of her students. But children love her, and so will the reader of this extraordinarily moving book by the Pulitzer Prize–winning author of House and The Soul of a New Machine. Tracy Kidder spent nine months in Mrs. Zajac’s fifth-grade classroom in a depressed area of Holyoke, Massachusetts. Living among the twenty schoolchildren and their indomitable teacher, he shared their joys, catastrophes, and small but essential triumphs. His resulting New York Times bestseller is a revelatory and remarkably poignant account of an inner-city school that “erupts with passionate life,” and a close-up examination of what is wrong—and right—with education in America (USA Today). “More than a book about needy children and a valiant teacher; it is full of the author’s genuine love, delight and celebration of the human condition. He has never used his talent so well.” —The New York Times

Teaching While Black Pamela Lewis 2016-03-16 Teaching should never be color-blind. In a world where many believe the best approach toward eradicating racism is to feign ignorance of our palpable physical differences, a few have led the movement toward convincing fellow educators not only to consider race but to use it as the very basis of their teaching. This is what education activist and writer Pamela Lewis has set upon to do in her compelling book, Teaching While Black: A New Voice on Race and Education in New York City. As the title suggests, embracing blackness in the classroom can be threatening to many and thus challenging to carry out in the present school system. Unapologetic and gritty, Teaching While Black offers an insightful, honest portrayal of Lewis’s turbulent eleven-year relationship within the New York City public school system and her fight to survive in a profession that has undervalued her worth and

her understanding of how children of color learn best. Tracing her educational journey with its roots in the North Bronx, Lewis paints a vivid, intimate picture of her battle to be heard in a system struggling to unlock the minds of the children it serves, while stifling the voices of teachers of color who hold the key. The reader gains full access to a perspective that has been virtually ignored since the No Child Left Behind Act, through which questions surrounding increased resignation rates by teachers of color and failing test scores can be answered. Teaching While Black is both a deeply personal narrative of a black woman’s real-life experiences and a clarion call for culturally responsive teaching. Lewis fearlessly addresses the reality of toxic school culture head-on and gives readers an inside look at the inert bureaucracy, heavy-handed administrators, and ineffective approach to pedagogy that prevent inner-city kids from learning. At the heart of Lewis’s moving narrative is her passion. Each chapter delves deeper into the author’s conscious uncoupling from the current trends in public education that diminish proven remedies for academic underachievement, as observed from her own experiences as a teacher of students of color. Teaching While Black summons everyone to re-examine what good teaching looks like. Through a powerful vision, together with practical ideas and strategies for teachers navigating very difficult waters, Lewis delivers hope for the future of teaching and learning in inner-city schools.

Searching for Hope Matthew Tully 2012-02-24 “A gritty, wonderfully honest investigation of life in an urban American high school in the 21st Century.” —Jay Mathews, Washington Post education columnist Searching for Hope is a gripping account of life in a once-great high school in a rough Indianapolis neighborhood. Granted unfiltered access to Manual High throughout an entire school year, award-winning journalist Matthew Tully tells the complex story of the everyday drama, failures, and triumphs in one of the nation’s many troubled urban public high schools. He walks readers into classrooms, offices, and hallways, painting a vivid picture of the profound academic problems, deep frustrations, and apathy that absorb and sometimes consume students, teachers, and administrators. Yet this intimate view also reveals the hopes, dreams, and untapped talents of some amazing individuals. Providing insights into the challenges confronting those who seek to improve the quality of America’s schools, Tully argues that school leaders and policy makers must rally communities to heartfelt engagement with their schools if the crippling social and economic threats to cities such as Indianapolis are to be averted. “[W]hile the book offers no unfamiliar insight into the plight of urban schools, it does give a powerful, ultimately genuine voice to the complicated, imperfect individuals whose victories and hopes are often unreported.” —Publishers Weekly “[T]his keen observation of teens at a troubled high school makes for fascinating reading.” —Library Journal

Tempted and Tried Russell Moore 2011-03-02 Although temptation is a common and well-acknowledged part of the human experience, few realize the truth behind temptation and fewer still know how to defeat it. Tempted and Tried will not reassure Christians by claiming that temptation is less powerful or less prevalent than it is; instead, it will prepare believers for battle by telling the truth about the cosmic war that is raging. Moore shows that the temptation of every Christian is part of a broader conspiracy against God, a conspiracy that confronts everyone who shares the flesh of Jesus through human birth and especially confronts those who share the Spirit of Christ through the new birth of redemption. Moore walks readers through the Devil’s ancient strategies for temptation revealed in Jesus’ wilderness testing. Moore considers how those strategies might appear in a contemporary context and points readers to a way of escape. Tempted and Tried will remind Christians that temptation must be understood in terms of warfare, encouraging them with the truth that victory has already been secured through the triumph of Christ.

Why Did I Get a B? Shannon Reed 2021-06 This hilarious and candid collection of personal essays about teaching follows in the footsteps of such classics as Teach Like Your Hair’s on Fire, The Courage to Teach, and Up the Down Staircase. “Send this book to your favorite teacher. They’ll know you’re sucking up. They’ll thank you anyway” (People). Shannon Reed did not want to be a teacher, but now, after twenty years of working with children from preschool to college, there’s nothing she’d rather be. “With an irresistible combination of compassion, humor, and engaged storytelling” (Shelf Awareness), her essays illuminate the highs and lows of a job located at the intersection of youth and wisdom. Bringing you into the trenches of this most important and stressful career, she rolls her eyes at ineffectual administrators, weeps with her students when they experience personal tragedies, complains with her colleagues about their ridiculously short lunchbreaks, and presents the parent-teacher conference from the other side of the tiny table. From dealing with bullies and working with special needs students to explaining the unwritten rules of the teacher’s lounge this “starkly honest, at times irreverent” (Library Journal) look at teaching is full of as much humor and heart as the job it celebrates.

When Areli was just a baby, her mama and papa moved from Mexico to New York with her brother, Alex, to make a better life for the family--and when she was in kindergarten, they sent for her, too. Everything in New York was different. Gone were the Saturdays at Abuela’s house, filled with cousins and sunshine. Instead, things were busy and fast and noisy. Areli’s limited English came out wrong, and schoolmates accused her of being illegal. But with time, America became her home. And she saw it as a land of opportunity, where millions of immigrants who came before her paved their own paths. She knew she would, too. This is a moving story--one that resonates with millions of immigrants who make up the fabric of our country--about one girl living in two worlds, a girl whose DACA application was eventually approved and who is now living her American dream. The Deferred Action for Childhood Arrivals (DACA) is an immigration policy that has provided relief to thousands of undocumented children, referred to as “Dreamers,” who came to the United States as children and call this country home.

[Teacher to Teacher](#) Eleanor Ruth Duckworth 1997-08-22 Thirteen teachers join with renowned educator Eleanor Duckworth in this engaging account of a year-long project in which they learned from each other to become better teachers. *Teacher to Teacher* will have wide appeal to teachers at all levels since it deals with issues that concern day-to-day life. Here, teachers talk with one another about their students: "Kevin is by far the brightest student in the class. Not only does he refuse to do any work, he attempts to disrupt other people and gain attention." Here, too, they share stories about themselves, like Elissa, who chose to tell her class that she is diagnosed with a life-threatening disease. And, just as important, they share triumphs, like that of a teacher's extraordinary success with boys serving time in a correctional institute. A striking presentation of teachers' thinking about central current issues, this book will enrich everyone's understanding of what it means to be a teacher.
